

Procedure: Class summary (for 2019 onwards)

For 2018 and earlier please refer to [Course Outline procedure ANUP 000698](#)

Purpose

To describe the University's requirements regarding the preparation, review and provision of class summaries for coursework courses.

Procedure

This procedure applies from 2019 onwards.

1. The University's class summary template in the Curriculum Management System is used to develop a class summary for every coursework class offered in a teaching period.
2. Class summaries are written in English. Non-English versions may be offered in addition to English versions upon approval by the relevant College Education Committee.
3. Class summaries are approved by the Associate Dean or their nominee(s).
4. Class summaries are made available to students no less than two weeks prior to the start of the class.
5. Amendment to any section of any class summary after the second week of the semester or trimesters, or after 10% of a class taught in a non-standard session has elapsed, are approved by the Associate Dean or their nominee(s). Where possible students are consulted about the proposed amendments and their feedback communicated to the Associate Dean before the Associate Dean or their nominee(s) approves the changes. Approvals are only considered in cases of serious, unforeseen and documented cases of needs. Students enrolled in the course are notified of any changes approved by the Associate Dean or their nominee(s).

6. Class summaries form part of the evidence used by Colleges to make determinations about the reaccreditation of courses.
7. The class summary template in the Curriculum Management System supports regular and triggered course reviews undertaken by Colleges.
8. Approved class summaries are published on the University's online handbook, [Programs and Courses](#).
9. The class summary page on [Programs and Courses](#) will display the following template information:
